South Bend The Master Piece

THE South Bend Watch Company might use garnet jewels in their watches instead of ruby and sapphire jewels as many other watch companies do and thus greatly reduce the cost of production. You would not notice the difference in buying.

But, if garnet jewels were used, the watch would not have any such lasting qualities—

and the South Bend Watch Company believes it is better to have smaller profits and satisfied customers than large profits and dissatisfied customers.

That's the way we feel about it, too, which accounts for our giving South Bend watches the preference.
